Subject: Interior Delegation Gasline Priorities

Hello Everyone,

Thought I'd share the following information~

FYI - The Fairbanks Chamber of Commerce asked the interior delegation members to give them their "TOP 5 most important elements in a gasline proposal"

Here are their responses:

Rep. Kelly

1. Expandability
2. Off-take points
3. Access to the pipe
4. Fair share of Revenues
5. Provisions for gasline to South Central

Rep. Ramras

1. An open process allowing for specific criteria, but also allowing for a more "free form" proposal
2. A revolving loan fund so communities can develop infrastructure to nominate gas into non-gasified communities
3. Minimal tariffs and maximum capacity
4. Tight timelines to lend to FERC certification
5. The House Oil and Gas version of AGIA

Sen. Theriault

1. A system that encourages competition and exploration
2. Rolled-in tariffs to encourage expansions
3. Access to gas for in-state use
4. Maximum employment of Alaska workers allowed by the Constitution
5. Earliest date of operation

Sen. Wilken

1. A gasline is built

ROSTON 00184

10/14/2009

2. Maximum total benefit to Alaskans
3. Rolled in expansion for future explorers
4. Alaska takeout points
5. Maximum AK hire during construction and ongoing operations

Rep. Kawasaki and Sen. Thomas hadn't responded yet.

Be the change you want to see in the world!

Ahhh...imagining that irresistible "new car" smell?
