Todd,

I'll make some phone calls this morning and get back to you this afternoon with an update on the specifics you requested for the House projects. I apologize for the inconveniences.

The 4- 5 min. delay for hot water is due to the re-circulating pump being shut off for this phase of the plmbg. project. Thursday they came up with a way to get hot water to the mstr. bath quicker, but I'll call to see why it's still taking so long and have them address the problem again.

We're on our way back from

S. Dakota but we got stuck in Seattle, we'll get back to Jnu. by this afternoon.

Ryan's team won; great to finally see one of his games!

Thanks,

Erika

Erika,

What's the time line on the construction schedule for the Mansion, are they on schedule, are they over budget. We don't want to get hit with major expense's that weren't planned. The hot water takes forever to heat up, has the system changed or are they working on it. It's difficult to live there when construction is taking place on all three floors, can they tackle living quarters and get it over with. Give me a call after you have spoken with the contractors.

Thanks Todd

How was Ryan's game, did he win.
