### whoever defends last years opl tax deal suspect

Look at the real background of those defending the corrupted tax deal. What are they going to gain personally?How come so many legislators go into public office with little to no personal wealth and come out very rich?Not that I am suspicious or anything.

### You go, Johnny!

Why Ralph Samuels would bring back this Murkowski holdover I'll never know. Nice PowerPoint presentation, though, Pedro. Must be nice to be able to prepare, unlike Dan Johnston who was evidently only invited a week ago.

Toadie for Frank, this guy is a joke. How much have we paid him now, \$3,000,000? It was okay to have a pipeline under Frank, but not under Sarah? Alaska, the USA, and the world will not need natural gas by the time everybody stops yapping and the first molecule of natural gas is ready to be shipped? What a misogynist and stupid to boot - send him packing back to Europe where belongs.
