Subject: State chamber

As a member of the state chamber, I just got the notice of Sarah's appearance at their lunch meeting on the 22nd. Could be a great place to launch a counterattack against the Jim Jansen and Veco types. All this ties into the corruption of our state by Veco, and they still continue it through their phony editorial page in the Anchorage Daily News. This could strengthen the message, but I think the references back to statehood and control by outside companies is very strong.
