Mike Heimbuch went onto Eddie's show to talk about voter rejection of the \$8M in local bonds, and tied that to fiscal responsibility at the State level. Did an awesome job.

Mike,

Great job articulating the bond issue and how it relates to the flow of money from the legislature. Thanks so much for going onto Eddie today and talking the issue. As I mentioned, this issue hits not only Homer, but many other areas around the State. I'm impressed that the community of Homer has stood up against further property taxes.

Frank
