Dear Fellow Republicans,

As the presidential race heats up, it is becoming apparent that our party is more divided than it has been in years. At a time when the GOP seems to be going through an identity crisis, we are left wondering where we can find a leader who can help unite the party after a contentious primary and lead us into the 21st Century while maintaining our core beliefs.

A growing number of us are convinced that the answer may be **Governor Sarah Palin** of Alaska. As the nation's **only** organized vice-presidential draft movement, the effort to get Governor Palin on the ticket in 2008 has been quickly picking up speed. If you are interested in helping this historic venture, check out our main website at

palinforvp.blogspot.com and [click here to sign our online petition](#).

Governor Palin has all of the qualities that we need in a leader. She is strongly pro-life, a lifetime member of the National Rifle Association, and one of the nation's leading crusaders for ethical government. She has been **lauded as a future leader by conservative luminaries such as Fred Barnes and Patrick Ruffini**, and her cancellation of the notorious "bridge to nowhere" project has won praise from the Club for Growth. Her personal life speaks volumes, as she is still married to her high-school sweetheart and has mothered four children, one of whom is currently serving in the U.S. Army. With almost 90% of Alaskans approving of her performance, she is also the nation's most popular governor. Maybe that's why our movement has won endorsements from supporters of almost every GOP presidential candidate.

For updates, you can join our mailing list by emailing me at palinforvp@gmail.com. You won't get any spam, and we wouldn't even know how to sell your information if we wanted to. All we want is your help in advancing the most innovative grassroots movement in the Republican Party today. Lastly, **please forward this message to as many people as you can**. If we stand together, we can create lasting results for our party and our nation.

God bless America,

Adam Brickley

Praise for Governor Palin

Fred Barnes – "The Most Popular Governor"

Patrick Ruffini – "The GOP's North Star"

Club for Growth – "Palin Stands Up to Porkers"

Disclaimer: The "Draft Palin Movement" is a totally independent, grassroots effort. It is not officially endorsed by or connected to Governor Palin in any way.
